### Legal context

Wilton Town Council has adopted this risk management policy in accordance with guidance set out in *Governance and Accountability for Local Councils - a Practitioners' Guide (England)* issued by the Joint Practitioners Advisory Group (JPAG) and also to give effect to the Health and Safety at Work Act 1974.

### The purpose of this policy

Compliance with this policy ensures that the Council assesses and addresses the risks associated with its activities. This policy aims to identify the steps needed to avoid or address risks and to provide increased confidence in the Council's corporate governance arrangements.

10 February, 2020

## 1. Background

- 1.1. Risk is an uncertain event or condition that, if it occurs, will have an effect on the achievement of Wilton Town Council's objectives. Risk management is the process whereby the Council methodically address the risks associated with what it does and the services it provides. The focus of risk management is to identify what can go wrong and take proportionate steps to avoid this or successfully manage the consequences. Good risk management allows stakeholders to have increased confidence in the authority's corporate governance arrangements and its ability to deliver its priorities.
- 1.2. Risk management is not just about financial management; it is about protecting the achievement of objectives set by the Council to deliver high quality public services. The failure to manage risks effectively can be expensive in terms of litigation and reputation, and can impact on the ability to achieve desired outcomes. The authority generally and members individually are responsible for risk management.
- 1.3. Risk management is an ongoing activity that comprises four elements:
  - a) identifying risks;
  - b) assessing risks;
  - c) addressing risks; and
  - d) reviewing and reporting.

## 2. Identifying risks

- 2.1. In order to manage risk, the Council needs to know what risks it faces. Identifying risks is therefore

the first step in the risk management process.

2.2. The Council will identify the key risks to achieving successfully its priorities and service objectives, in the following categories:

- a) financial – loss of money;
- b) security – fraud, theft, embezzlement;
- c) property – damage to property;
- d) legal – breaking the law or being sued;
- e) IT – failure of IT systems or misuse; and
- f) reputational – actions taken could harm the authority’s public reputation.

### 3. Assessing risks

3.1. Having identified potential risks, the Council assesses the likelihood of it happening and the impact it would have, using JPAGs recommended assessment process. This allows the Council to identify low, medium and high risks when considering measures it should take.

3.2. Wilton Town Council’s risk assessment matrix:

Likelihood ↑	Highly likely (3)	Medium (3)	High (6)	Very high (9)
	Possible (2)	Low (2)	Medium (4)	High (6)
	Unlikely (1)	Very low (1)	Low (2)	Medium (3)
		Negligible (1)	Moderate (2)	Severe (3)
		Impact on the Council →		

### 4. Assessing risks

4.1. Risk is unavoidable, and every organisation needs to take action to manage risk in a way which it can justify to a level which is tolerable. The response to risk, which is initiated within the Council, is called ‘internal control’ and may involve one or more of the following standard responses:

<b>Tolerate</b>	For risks that are containable; where the possible controls cannot be justified (e.g. they would be disproportionate) and where risks are unavoidable e.g. terrorism.
<b>Treat</b>	Imposing controls so that the organisation can continue to operate; or introducing measures to deal with the risk.
<b>Transfer</b>	Buying in a service from a specialist external body or taking out insurance. Some risks cannot be transferred, especially reputational risk.
<b>Terminate</b>	Avoiding or cancelling activities where no response can bring the risk to an acceptable level.

4.2. The Council will uses insurance to help manage risk include the following:

- a) The protection of physical assets owned by the authority – buildings, furniture, equipment, etc. (loss or damage).
- b) The risk of damage to third party property or individuals as a consequence of the authority providing services or amenities to the public (public liability).
- c) The risk of consequential loss of income or the need to provide essential services following critical damage, loss or non-performance by a third party (consequential loss).
- d) Loss of cash through theft or dishonesty (fidelity guarantee).
- e) Legal liability as a consequence of asset ownership (public liability).

4.3. The limited staff resources available to the Council means that it works with specialist external bodies to help manage risk include the following:

- a) Security and maintenance for vulnerable buildings, amenities or equipment.
- b) The provision of services being carried out under agency/partnership agreements with principal authorities.
- c) Banking arrangements, including borrowing or lending.
- d) Ad hoc provision of amenities/ facilities for events to local community groups.
- e) Markets management.
- f) Vehicle or equipment lease or hire.
- g) Trading units (leisure centres, playing fields, burial grounds, etc.).
- h) Professional services (planning, architects, accountancy, design, etc.).

## 5. Reviewing and reporting

5.1. Having identified likely risks, the Council records this in the Wilton Town Council Risk Register (Appendix 1). This register is kept under review by the Responsible Financial Officer and is reported to the Finance and General Purposes Committee.

5.2. The Council seeks advice and guidance on risk management from its insurers JPAG, the National Association of Local Councils, the Society of Local Council Clerks and other training providers. The Council provides training for its staff through the CiLCA qualifications and additional specialist training where appropriate.
